Notes

- ❖ If you don't know, just say 42. If you do know, just say 42
- ❖ *RUMOR, n. A favorite weapon of the assassins of character. - Ambrose Bierce*

*Sharp, irresistible by mail or shield,
By guard unparried as by flight unstayed,
O serviceable Rumor, let me wield
Against my enemy no other blade.
His be the terror of a foe unseen,
His the inutile hand upon the hilt,
And mine the deadly tongue, long, slender, keen,
Hinting a rumor of some ancient guilt.
So shall I slay the wretch without a blow,
Spare me to celebrate his overthrow,
And nurse my valor for another foe.*

- ❖ Muddy Boots site/podcast is a playful and rebellious Bard (Guardian). They have pecan eyes, a dark complexion, and curly golden-blond hair pinned neatly back. They are very tall, and quite thin, and their duty attire resembles an elegant auditory uniform in coffee and copper colors wrapped in mystic hazelnut bows. They roam about wearing a cinnamon colored cape. Their preferred weapon is a Tibetan Gong, and their mission is to find a legendary sound and defeat a genocidal king. Tune in and join the quest - because we can do more together than any of us can do on our own.
